

# Muhammed Ubeyd

Full Stack Developer

Aleppo, Syria • +905052050514

[mhd.ubeyd@gmail.com](mailto:mhd.ubeyd@gmail.com) • [LinkedIn](#)

## Profile

---

Experienced and dedicated full-stack mobile app developer offering more than 6 years of expertise in the IT industry. Dynamic and personable with a strong focus on the application lifecycle. Strengths in cross-platform mobile development with React Native.

## Areas of Expertise

---

- React Native
- React
- Docker
- Typescript
- .NET Core Rest API
- Git
- NextJs
- Firebase
- Github
- NodeJs Rest API
- Supabase
- Fastify

## Professional Experience

---

### Cashii, remote, Mar 2025 to Jan 2026

#### Senior FullStack developer

- **Frontend:** Developed and maintained multiple feature sets for the core e-wallet mobile application using React and React Native, supporting a growing consumer base processing real-time financial transactions.
- **Backend:** Built and maintained Node.js services powering core e-wallet operations and third-party integrations.
- Engineered third-party API integrations for digital gift cards and seamless payment processing.

### Sahll, remote, Jan 2025 to Present

#### FullStack developer

- **Frontend:** Built an SEO-optimized web portal and cross-platform mobile apps (Android/iOS) using Next.js and Capacitor.
- **Backend:** Designed and maintained data architecture using Supabase (PostgreSQL) for auth, real-time data, and storage.

### GeniusTags, Gaziantep, Aug 2023 to Mar 2025

#### FullStack developer

- **Frontend:** Built and maintained feature-rich React Native modules for the **Genius Distribution** platform, using Redux for state management across warehouse and beneficiary workflows serving thousands of NGO beneficiaries.
- **Backend:** Integrated .NET Core C# REST API services powering warehouse management and aid distribution operations.
- Spearheaded feature upgrades for the **Genius Feedback** system to capture and track beneficiary data and field performance metrics.

### Osmanbaba, Gaziantep, Oct 2022 to Mar 2023

#### Frontend Web developer

- Developed and optimized the core osmanbaba.net platform using Next.js and Tailwind CSS, focusing on responsive design and performance.
- Implemented comprehensive SEO (structured data, sitemaps, meta tags) ensuring high visibility and structured indexing across Google Search, Google Merchant Center, and Facebook Marketplace.

## **Hypatia Tech, Gaziantep, Mar 2021 to Oct 2022**

### **FullStack Developer**

- **Frontend:** Built the **Distribution Inventory App** (SaaS) using React Native, Redux, and Realm DB with full offline-first sync.
- **Backend:** Developed a high-performance REST API using .NET Core and C# supporting multi-tenant SaaS operations.
- Adopted Agile values and modern engineering principles to improve code quality and team velocity.

## **Fixo App, Gaziantep, Aug 2020 to Jan 2021**

### **Mobile Developer**

- Architected and deployed the full-stack mobile ecosystem from scratch using React Native and TypeScript.
- Integrated mapping utilizing native geolocation APIs.

## **Hypatia Tech, Gaziantep, Aug 2019 to Jan 2020**

### **Mobile developer**

- Rapidly learned and applied **React Native**, **TypeScript**, and **Firebase** to co-develop a mini-market accounting mobile app (**Cashier App**).
- Gained hands-on experience in mobile DevOps, managing Google Play Store releases and setting up CI/CD pipelines via **App Center CodePush** for OTA updates.

## **Education**

---

### **Gaziantep University, Gaziantep, Sept 2016 to May 2021**

#### **Bachelor's Degree in Physics Engineering**

**Core Coursework:** Engineering Programming, Computational Methods, C++, MATLAB, LaTeX, Electronic Circuit Design, Optics & Acoustics, and Modern Optics Astronomy.
